Instructions

This medication is a non-steroidal anti-inflammatory. Do not give any Aspirin or Prednisone (steroids) with this medication. Most pets do not have undesirable side-effects from this medication, but side effects are possible with any medication. Warning signs of an adverse reaction include vomiting, loss of appetite, soft stools, diarrhea, black stools, pale gums, or yellow gums. If you notice any of these signs, discontinue the medication and call your regular veterinarian or BluePearl Veterinary Partners as soon as possible.

BluePearl supports Frankie's Friends, a foundation that assists the neediest families with their pets' life-saving medical treatments. We can accept your tax-deductible donation or visit [www.frankiesfriends.com](http://www.frankiesfriends.com).
